TAX FACTS—1932

by

A. D. SIZER, County Treasurer
Champaign County, Illinois

Ex Officio, County Collector and Supervisor of Assessments

TAXES MUST BE REDUCED! The new tax bills represent a step in the right direction. In this county the new bills aggregate nearly $300,000 less than last year. This represents an average reduction of almost 10%. A large part of this reduction is in the City of Champaign, where the school rate was reduced 38 cents.

But while a reduction of nearly 10% has been effected, the tax paying ability of many of the property owners has been almost wiped out during the past year. As a community we are confronted with the necessity for doing just what we do as individuals under similar circumstances. When the average family's income is reduced, it is necessary to reduce the scale of living or go in debt. When the tax payers' income is reduced, the tax payers naturally feel that they should contribute less to the cost of government.

COSTS *of Government* MUST BE CUT

If taxes are to be reduced, we must reduce government expenditures, or go in debt. The sensible thing is to reduce expenditures. It will be necessary for us to take up each function of government for which public money is expended, and scrutinize it carefully to determine whether it is worth what it costs, in the light of our reduced purchasing power. Essentials will be retained, though perhaps some way will be found to reduce their cost. In times like these, non-essentials should be ruthlessly pared.

Economy in public affairs, like charity, should begin at home. The tax money you pay into this office (as well as your gas tax, inheritance tax, auto license, and most other fees and licenses), is all spent within the state. Most of your general property tax is expended within your own township. A study of the rate sheet furnished you herewith will give you a pretty good idea of what your tax money goes for.

WHERE *the* MONEY GOES

An analysis of your tax dollar might be of interest. If your property is in the township of the City of Champaign the tax rate will be $5.00 on each

**Use Non-High School rate only for property not included in a High School District.

In calculating your tax rate use only the rate shown for the school district in which your property is located.

Following are the total tax rates for the various cities and villages within the county: Broadlands $4.66; Champaign $5.00; Fisher $4.62; Ivesdale $4.53; Longview $4.17; Mahomet $5.65; Pesotum $4.96; Philo $5.67; Rantoul $4.89; Sadorus $4.29; Ogden $4.83; Sidney $5.51; St. Joseph $5.16; So. Homer $6.39; Thomasboro $5.31; Tolono $5.18; Ludlow $4.55; Urbana $5.40.

336.2
C35WE
1932

one hundred dollars assessed value. Each dollar that you pay will be divided approximately as follows:

State	$0.08
County	0.15
Schools	0.40
City	0.22
Township	0.10
Sanitary District	0.05
Total	$1.00

Approximately half of the state tax is used for educational purposes, while more than half of the county tax goes for roads. Considering the $2,724,000 to be collected in general property taxes in this county, 45% is used for educational purposes, while 20% may be classified as road funds. Roughly, 10% of the total property tax paid in this county is used for the care of wards of the state, paupers, dependent children, etc. Most of the remaining 25% might be classified as the administrative expense of government, though it includes all of the costs of city and village government within the county, as well as the park and sanitary district levies.

HOW *the Amount of Your* TAX BILL IS DETERMINED

The method of determining the amount of your tax bill should be of interest. The first step is the assessing of your property by the local assessor. The law says **ALL** property shall be assessed at its **FULL** fair cash value. But there has arisen the practice of assessing property at only a fraction of its actual value. There would be no serious objection to this, if all property were assessed at the same rate. In fact it would be practically impossible to assess property at its actual value under existing conditions. The values determined by the assessors are subject to revision by the Supervisor of Assessments, by the Board of Review, and by the State Tax Commission.

At the same time the assessed value of the property is being determined, the various governing bodies are making their levies. The State Levy Board determine the state tax rate. They calculate how much revenue has to be raised from the general property tax to make up the amount the legislature has appropriated. They know the total assessed value of all the property on the tax books of the state, and from this they calculate the state rate, and notify the various county clerks. The Board of Supervisors make the levy for county purposes. In Champaign County this county levy is a four fold affair. There is a levy to provide funds for principal and interest on the County Road Bonds. There is another levy for maintaining the county highway system, sometimes called the state aid roads. There is still another levy for the Tuberculosis Sanitarium. These are all in addition to the regular 25 cent levy for general county purposes.

LOCAL BOARDS RESPONSIBLE

The town boards levy for town purposes (now including pauper relief), for the road and bridge fund, and by special permission, for road oil or permanent road bonds. Each school board and each city or village board makes its levy. The Non-high School Board, and the park boards and the Sanitary District, as well as certain drainage districts, also make an annual levy. All these various boards within the county send their levies to the County Clerk, who calculates the rate necessary to produce the amount levied, from the total of the taxable property within the district. If this rate is in excess of the maximum permitted by law, he simply extends the maximum rate, and lets it produce what it will. After your total rate is determined, the County Clerk simply multiplies the assessed value of your property by this rate, to obtain the amount of your tax.

From the above it should be apparent that if you really want taxes reduced you should advise with your local school boards and town boards, as well as with your supervisors, to bring about a reduction in the levy they will make this year.

One way in which a sharp reduction in taxes could be effected would be to use the gas tax money and other state refunds to retire the county road bonds, if it appears desirable, in lieu of the 30 per cent levy extended annually for that purpose. This alone would reduce the total tax bill for the county by $200,000. There are arguments on both sides of this proposition. It is merely suggested for your consideration.

EFFICIENCY INCREASED

Most government expenditures are well nigh essential. The schools must be kept open, the wards of the state and other public charges must be cared for, laws must be enforced, roads must be kept passable, bonds must be paid,—the real business of government must be carried on. But costs must be cut and non-essentials must be eliminated. **In short, everything must be done that can be done to make sure that the public gets a dollar's worth of value for every dollar of tax money expended.**

In line with this, we are pleased to assure you that every effort is being made to increase the efficiency of this office. During the past year the work of this office has been increased nearly 50% as compared with the year before. But we have handled this additional work without increased expense. We are now effecting further economies which should enable us to reduce materially the expenses of the office. In addition, we have effected a saving to the county of at least $20,000 during the past year, in interest, in penalties, and in personal property taxes, that have heretofore escaped collection. The net earnings of the office, which are turned into the general fund of the county, have been increased by this amount.

Yours for lower taxes.

A. D. Sizer

* Use Non-High School rate only for property not included in a High School District.

In calculating your tax rate use only the rate shown for the school district in which your property is located.

To calculate the amount of your tax that is to be used for any particular purpose, multiply the valuation shown on your tax bill by the rate indicated above for your locality, and divide by 100.

* Use Non-High School rate only for property not included in a High School District. In calculating your tax rate use only the rate shown for the school district in which your property is located.

To calculate the amount of your tax that is to be used for any particular purpose, multiply the valuation shown on your tax bill by the rate indicated above for your locality, and divide by 100.

TAX BILLS: A real estate tax bill for each piece of property is being mailed to the person who paid that tax last year. (Except where a change of ownership has been noted on the Assessor's books.) If a change of ownership has occurred, you should forward the tax bill to the new owner.

LEGAL DESCRIPTIONS: Examine your tax bills carefully before paying. See that all legal descriptions are correct; that they cover ALL the property on which you wish to pay and NO other.

RESPONSIBILITY: You should know your own property and **the duty to see that the taxes are paid rests upon you.** This includes both real estate and personal property taxes, and holds true whether you receive a tax bill or not.

PAYMENT: Your **tax bill must accompany your payment.** We suggest you remit by mail so as to avoid waiting in line at the Collector's office. Do not send cash through the mail, but do send your personal check, bank draft, or money order. Your receipt will be returned to you promptly. This receipt will indicate the amount paid, the person who received your payment, on what parcel paid, how paid (check, draft, etc.), date paid, what kind of tax paid, and our transaction number.

REMITTANCES: Should be made payable to **Ralph Rose, County Collector.**

CORRECTIONS: Please make any necessary corrections of your name and address before returning your bill to this office. If your tax is incorrectly **computed,** please come to our office in order that corrections may be promptly made.

Errors of **valuation of property** cannot be corrected at this office. The Collector is charged with collecting the taxes as extended by the County Clerk. Therefore, we must have the payment for each bill, or an affidavit from your local assessor or the Board of Review that your tax was erroneously assessed.

COLLECTIONS: The first installment of real estate taxes is due when you receive your bill and becomes delinquent June 1. The second installment is due August 1 and becomes delinquent September 1. Personal property taxes are due when you receive your bill and become delinquent June 1.

The duty of the Collector is to collect the taxes as extended on the tax books. **He is required by law, as one of the duties of his office, to take such legal action as may be necessary to collect the taxes.**

Therefore, the Collector must take judgment for unpaid taxes and hold a public sale of the taxpayers property in order to collect the taxes due.

The interest and penalties on unpaid taxes are severe.

TAX RATES: On the reverse side of this sheet you will find the rates levied by the various tax levying bodies.

HOW TO COMPUTE YOUR TAX RATE: Add the total figure of County, Township, and Corporation rates with your common school district rate and your high school district rate. If you live in a non-high school district, substitute this figure for the high school rate.

If you live in a unit school district, substitute this rate for all other school rates.

This total rate multiplied by your equalized valuation is your tax.

THE RECORDS OF THIS OFFICE ARE PUBLIC RECORDS AND ARE AVAILABLE FOR YOUR INSPECTION AT ALL TIMES.

Please call upon us if we may be of further service to you.
